- The Leaders Forum is not another 'talking shop' it's a training and coaching group focussed on personal and organisational goals.
- It's a facilitated event where the agenda is driven by the members who challenge each other to explore alternative solutions for their live business issues. Occasionally there are guest speakers and contributors.
- It meets four times a year at various locations within a geographical area. There are 3 half-day sessions every quarter and one full strategic planning day in the fourth quarter.
- Membership is open to those with a leadership role in any organisation, but to ensure a consistently high quality of service, numbers are limited to a maximum of 8.
- The Leaders Forum is a natural extension of the Leadership Programme and a way of continuing personal and professional development.
- There is also a vetting process which avoids any conflict of interest from direct competitors or other sources of potential friction.
- Membership fees are £950, which covers attendance at all four sessions in a year.
